

ANTI GRAFFITI

Protection for **non porous** materials.

Nanoman **Anti Graffiti Non Porous** is an advanced, long lasting one coat, non sacrificial, anti-graffiti coating specially formulated to protect surfaces from the permanent defacing of undesirable graffiti. The invisible finish is abrasion resistant and will not yellow with age. Nanoman Anti Graffiti Non Porous is highly resistant to most types of aerosol spray paint and permanent markers, as well as dirt, chewing gum, oil, soot and pollution. Surfaces protected with Nanoman Anti Graffiti Non Porous prevent the adhesion of graffiti and makes removal of paints and permanent markers so much easier.

APPLICATIONS

- Nanoman Anti-Graffiti Non Porous is particularly suitable for smooth non absorbent surfaces such as metal like aluminium, stainless steel, corten and powder coated materials, including metal roller doors. It is also suitable for plastics, polyurethane or epoxy coated materials.

FEATURES and BENEFITS

- Reduction in time and cost to remove graffiti.
- Graffiti can be removed easily, leaving no residue.
- Low VOC application and 0 VOC removal.
- Non sacrificial – sustains multiple graffiti removals.
- Single coat application that's long lasting and durable.
- Reduction in the use of consumables and removers.
- No ongoing recoat and unsightly colour patches.
- No sophisticated equipment required.

KEY FACTS

- Available in 125ml, 250ml and 1L.
- Single coat application. Avoid applying excessive amounts of the coating and do not apply multiple coats.
- Durable life of up to 7 years depending on the material, use and maintenance of the surface.

WHY NANOMAN

Nanotech Products specialises in the development, manufacture and supply of innovative nano based coatings. Through our Nanoman brand, we offer the most comprehensive range of nanotechnology enabled surface coatings currently available. Nanoman products are all eco-friendly, easy to use and designed to provide maximum protection from liquids, environmental pollution and weathering. Nanoman Anti Graffiti has been engineered as a simple and effective way of dealing with graffiti on all metal and plastic structures. It allows for rapid removal of all types of graffiti which is considered to be one of the most effective deterrents of further attacks. Nanoman Anti-Graffiti is a clear coating and completely invisible so will not alter the look of the surface to be protected. It come as a ready to apply coating requiring no primers or second coats. Nanoman Anti Graffiti coating is the next generation of surface protection.
