THE SCIENCE of PROTECTION

BOAT POLISH + SEAL

Protective Coating for Boats

Nanoman Boat Polish + Seal has been specifically engineered for the harsh conditions that boats and other watercraft have to endure. It makes cleaning and maintaining watercraft easier, faster and less costly, as well as maintaining its appearance and investment value. Nanoman Boat Polish + Seal creates a thin invisible barrier that prevents dirt and other foreign matter from adhering to or staining the surface. With the surface friction being reduced and the surface hydrophobic most contaminants are picked up by water and roll off the surface. Stubborn contaminants can be removed quickly and easily with water and a soft cloth in most cases. It can be used above and below the water line and therefore helps make the cleaning of algae and other marine pollution easier. In addition to providing an outstanding protective barrier against weathering, Nanoman Boat Polish + Seal will also refresh the existing boat surface and leave it with a deep high gloss shine.

FEATURES and BENEFITS

- Strong non-stick properties that remains for up to 12-18 months.
- Excellent easy-clean effect.
- Easy one step application that won't degrade due to sunlight.
- Durable, yet invisible to the human eye.
- Suitable for all watercrafts, including fibre glass, gel coat, plastic and aluminium surfaces.
- Environmentally friendly.

KEY FACTS

- Available in 100ml, 250ml, 1Lt and larger trade sizes.
- Perfect for boat enthusiasts who want to spend more time enjoying their time on the water rather than the endless cleaning and polishing usually associated with boat ownership.
- Coverage rate is 10ml per m².

WHY NANOMAN

NmTM
Nanoman

THE SCIENCE of PROTECTION

Nanotech Products specialises in the development, manufacture and supply of innovative nano based coatings. Through our Nanoman brand, we offer the most comprehensive range of nanotechnology enabled surface coatings currently available in Australia and globally.

Nanoman products are all eco-friendly, easy to use and designed to provide maximum protection from liquids, environmental pollution and weathering. Nanoman coatings provide surface protection for a variety of materials including glass, solar panels, stone, concrete, wood, metal, textiles, tile, stucco, block walls, motor vehicles, boats and equipment. Nanoman products reduce the need for the use of cleaning chemicals which are detrimental to the environment making the use of our products a better choice for the planet.

Complete Protection

Protection for your boat, inside and out

PRIOR TO USING ANY NANOMAN PRODUCT ALWAYS CONSULT THE RELEVANT TECHNICAL DATA SHEET FOR FULL DETAILS OF PRODUCT APPLICATION, USAGE AND DIRECTIONS. SAFETY DATA SHEETS SHOULD ALSO BE REVIEWED PRIOR TO USAGE
