

THE SCIENCE of PROTECTION

GRAFFITI REMOVER

Nanoman Graffiti Remover is used specifically for the removal of graffiti from all surfaces protected with Nanoman Anti-Graffiti. Due to its quick action, graffiti on surfaces can be removed effectively without causing damage to the Nanoman Anti Graffiti coating underneath the graffiti. Removes residue left from spray cans, felt pen based paints and inks. All types of enamel paint and acrylic paints are also easily removed.

Nanoman Graffiti Remover is VOC free and is user friendly. It removes graffiti without relying on traditional environmentally unfriendly chemical cleaners, or high pressure hoses.

APPLICATIONS

- Nanoman Graffiti Remover should be used on Nanoman protected surfaces including brickwork (painted and unpainted), concrete, various types of metal surfaces (e.g. galvanised, aluminium and steel) as well as timber and plastic (e.g. perspex) surfaces.
- A clear coating, making it ideal for mural protection.

FEATURES and BENEFITS

- Easy to use and is suitable for the professional and DIY user alike.
- No unpleasant solvent fumes (VOC free).
- Fast acting and easy to use.
- Removes all types of graffiti in 2-3 minutes.

KEY FACTS

- Available in 250ml, 750ml, and larger trade sizes.
- Always remove graffiti as quickly as possible, as it is usually easier to remove and deters repeat offences.
- When used as directed, will not damage the underlying Anti-Graffiti coating.

WHY NANOMAN

Nanotech Products specialises in the development, manufacture and supply of innovative nano based coatings. Through our Nanoman brand, we offer the most comprehensive range of nanotechnology enabled surface coatings currently available. Nanoman products are all eco-friendly, easy to use and designed to provide maximum protection from liquids, environmental pollution and weathering.

Nanoman Graffiti Remover has been developed to remove all kinds of graffiti in a fast, efficient and cost effective manner, whilst maintaining the integrity of the underlying nano based Anti-Graffiti coating. This includes walls already painted with mural art, preventing expensive remedial work and/or re-painting.

New wall protected with Nanoman Anti-Graffiti coating that has been freshly tagged.
