

STONE+BRICK

Protective Sealant for Stones and Bricks.

Nanoman Stone + Brick is a high-performance, nanotechnology enabled penetrating sealer for the protection of porous mineral surfaces of natural stone, brick and concrete materials. Nanoman Stone + Brick maintains the look of natural stone, brick and tiled surfaces. Using nanotechnology, these surfaces become super hydrophobic and liquids can no longer permeate and be absorbed. This prevents potential marks and stains and also protects against algae, moss, fungus and soiling. Nanoman Stone + Brick is 100% all natural, non toxic and eco-friendly. It's totally invisible and will not alter the appearance of the coated surface.

APPLICATIONS

- Entertaining areas.
- Swimming pool surrounds.
- Landscaping.
- Bench tops.
- Marble/granite and other natural stone surfaces.
- Paving stones.
- Brick/stone walls.

FEATURES and BENEFIT

- Prevents any liquid soaking into the stone or brick (prevents staining).
- Simple one coat application.
- Internal and external use.
- Strong non-stick properties (prevents the usual build up of contaminants).
- Excellent easy-clean effect.
- Permanent (UV-stable, very resistant to abrasion).
- Environmentally friendly, non-toxic, VOC Free.

KEY FACTS

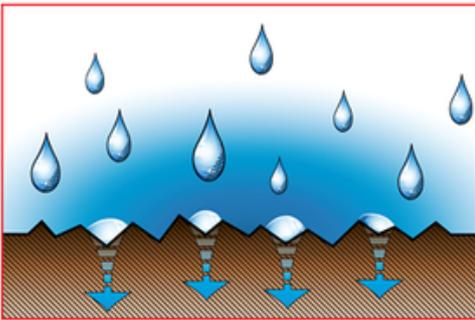

- Available in 250ml, 750ml, 1Lt and trade sizes.
- Should be used at approximately 50 - 80ml per m2.
- Effective for up to 5 years per application.
- Certified food safe.

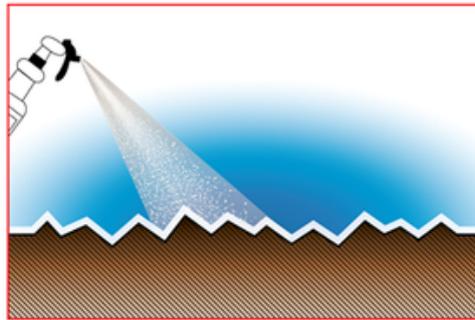

WHY NANOMAN

Nanotech Products specialises in the development, manufacture and supply of innovative nano based coatings. Through our Nanoman brand, we offer the most comprehensive range of nanotechnology enabled surface coatings currently available in Australia and globally. Nanoman products are all eco-friendly, easy to use and designed to provide maximum protection from liquids, environmental pollution and weathering.

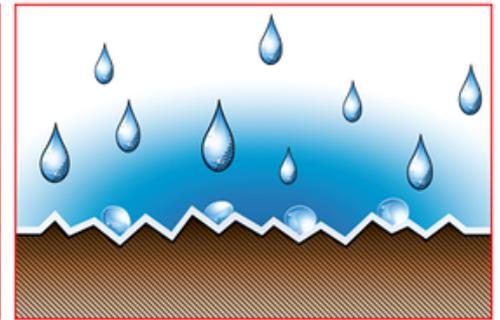

Nanoman coatings provide surface protection for a variety of materials including glass, solar panels, stone, concrete, wood, metal, textiles, tile, stucco, block walls, motor vehicles, boats and equipment. Nanoman products reduce the need for the use of cleaning chemicals which are detrimental to the environment making the use our products a better choice for the planet.

1. Uncoated surface material allows water to absorb in.

2. Nanoman protective coating by spray application.

3. Nanoman coated surface repels liquids preventing staining and permanent marks from developing.
