

AEROSPRAYER

PREVAL KIT

Say goodbye to tedious application methods like brushes, rollers, and pads.

- Simplifies application of Nanoman Anti Graffiti and Anti Rust coatings.
- Includes everything needed to easily spray up to 455ml of product with pressurised gas.
- Refill liquid as required, attach, and spray.
- Turns any liquid into an aerosol without needing a power source.
- Perfect for use with Nanoman Anti Graffiti and Anti Rust Coatings.
- The process atomises Nanoman coating for a consistent, professional-grade finish.
- Adjustable nozzle for controlling spray pattern, even in hard-to-reach spaces.
- Environmentally friendly, free of CFCs, in line with sustainability commitment.
- Additional power units and ergonomic trigger available for purchase.
