

THE SCIENCE of PROTECTION

CAR FABRIC + TEXTILE

Protective Coating for Car Fabric & Textiles

For use on car seats, car mats and soft tops, Nanoman Car Fabric + Textile protects automotive fabrics and textiles against water, dirt and stains, whilst remaining totally invisible. It will not affect the materials appearance, its ability to breathe, its colour or feel. Nanoman Car Fabric + Textile surrounds every fibre with a matrix network of nanoparticles that are extremely hydrophobic and oleophobic, meaning they repel both liquids and contaminants. Liquid spills will either run off or sit on top of the surface and can be easily shaken off or soaked up using a paper towel or similar. The liquids will not soak into the material, eliminating any potential staining. The nano coating is highly adhesive to fabrics and leather alike and will provide a highly effective layer against water, coffee and other liquid spills for up to 12 months.

FEATURES and BENEFITS

- Maintains the look, feel and characteristics of the material.
- Prevents stains, even on leather and vinyl.
- Totally invisible UV-stable (i.e. will help prevent discolouration due to sunlight).
- Quick and easy to apply, with the added benefit of being odour free.
- Non allergenic and environmentally friendly, (OEKO-TEX ECO PASSPORT).
- Perfect for convertible roofs.
- Ideal for baby seats and child boosters.

KEY FACTS

- Available in 250ml, 1Lt and larger trade sizes.
- Coverage is dependent upon the absorbency of the fabric being treated and ranges between 50-80 ml/m².

WHY NANOMAN

Nanotech Products specialises in the development, manufacture and supply of innovative nano based coatings. Through our Nanoman brand, we offer the most comprehensive range of nanotechnology enabled surface coatings currently available in Australia and globally.

Nanoman products are all eco-friendly, easy to use and designed to provide maximum protection from liquids, environmental pollution and weathering. Nanoman coatings provide surface protection for a variety of materials including glass, solar panels, stone, concrete, wood, metal, textiles, tile, stucco, block walls, motor vehicles, boats and equipment. Nanoman products reduce the need for the use of cleaning chemicals which are detrimental to the environment making the use of our products a better choice for the planet.

Nanoman Complete Protection

Protection for your car, inside and out
