THE SCIENCE of PROTECTION

SHOE + BAG

Protective Coating for Shoes + Bags.

Keep your shoes and bags looking newer for longer with Nanoman Shoes + Bags. It's an innovative fibre protection product that will protect almost all types of shoes and bags against water, dirt and stains, whilst remaining totally invisible. It can be used on suede and leather and will not affect the materials appearance, its ability to breathe, its colour or feel. Liquids will not soak into the material, eliminating any potential staining.

APPLICATIONS

- All types of shoes and bags, including leather and suede.

FEATURES and BENEFITS

- Long lasting protection for a wide variety of shoes and bags.
- Repel liquids and minimises stains.
- Maintains the look, feel and characteristics of shoes and bags.
- Totally invisible.
- UV-stable (i.e. will help prevent discolouration due to sunlight).
- Non allergenic.
- Environmentally friendly.

KEY FACTS

- A bottle of Nanoman Shoes + Bags will coat approximately 3 pairs of shoes.
- Touch dry in 60 min, however for best results allow coated material to dry for 24 hours.
- Effective for up to 12 months of normal wear.
